

Section 1513—Availability of Funds

This section would require the funds provided in this title to be made available for obligation by the end of the first quarter of fiscal year 2007.

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

PURPOSE

Division B provides military construction, family housing, and related authorities in support of the military departments during fiscal year 2007. As recommended by the committee, Division B would authorize appropriations in the amount of \$16,689,423,000 for construction in support of the active forces, reserve components, defense agencies, and the North Atlantic Treaty Organization security infrastructure fund for fiscal year 2007.

MILITARY CONSTRUCTION AND FAMILY HOUSING OVERVIEW

The Department of Defense (DOD) requested \$6,796,940,000 for military construction, \$5,817,443,000 for base realignment and closure (BRAC) activities, and \$4,084,040,000 for family housing for fiscal year 2007. The committee recommends authorization of \$7,085,898,000 for military construction, \$5,817,443,000 for BRAC activities, and \$4,055,553,000 for family housing in fiscal year 2007. In addition, the committee anticipates rescissions of \$260,471,000. Taking these rescissions into account, the committee's recommendations are consistent with a total budget authority level of \$16,689,423,000 for military construction, BRAC, and family housing in fiscal year 2007.

The Department's fiscal year 2007 request for military construction, family housing, and BRAC activities was, once again, a disappointing one. While the total request appears to be a significant increase over the fiscal year 2006 level, in reality, nearly the entire increase is the result of budget increases required for BRAC and chemical weapons demilitarization. After removing BRAC funds from the request, the non-BRAC request is approximately the same as the amount contained in the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163).

The committee continues to believe that DOD budget requests for military construction and family housing are inadequate to support military readiness and quality of life requirements. For this reason, the committee has once again reallocated funds within the requested funding levels to provide for additional military construction projects that are necessary for military training, operations, or to improve living or working conditions for military personnel.

A tabular summary of the authorizations provided in Division B for fiscal year 2007 follows:

Section 2001—Short Title

This section would cite division B of this Act as the “Joel Hefley Military Construction Authorization Act for Fiscal Year 2007.”

TITLE XXI—ARMY

SUMMARY

The budget request contained \$2,059,762,000 for Army military construction and \$1,271,820,000 for family housing for fiscal year 2007. The committee recommends authorization of \$2,135,598,000 for military construction and \$1,253,448,000 for family housing for fiscal year 2007.

ITEMS OF SPECIAL INTEREST

Explanation of Funding Adjustments

The committee has recommended reduction or elimination of funding for several projects contained within the budget request for Army military construction and family housing. These reductions include:

(1) \$1,644,000 from the funding amount requested for a barracks complex at Fort Richardson, Alaska. This project, as requested, includes funds for demolition of facilities at installations other than Fort Richardson. While the committee appreciates the Department of Defense’s efforts to offset construction with demolition during recapitalization, the committee believes that demolition should not be included within a military construction project request unless it is necessary to support construction of that project.

(2) \$31,000,000 for the purchase of temporary administrative buildings at Fort Belvoir, Virginia. The Department of the Army leased these facilities in January 2003 for up to five years in order to house Army Materiel Command (AMC). However, AMC will soon be moved to Redstone Arsenal, Alabama as a result of 2005 Base Realignment and Closure (BRAC) decisions. While the Department has asserted that Fort Belvoir currently has a deficit of administrative space, the committee is not convinced that expending \$31,000,000 to purchase temporary facilities which have only 20 years remaining in their anticipated lifespan is an effective use of funds. If the Department has a validated requirement for additional administrative space that is not related to BRAC 2005 moves, the committee urges the Secretary of the Army to request in future budgets funding for construction of permanent facilities.

(3) \$27,000,000 for construction of a museum support center at Fort Belvoir, Virginia. The committee notes that the National Museum of the Marine Corps (NMMC) is scheduled to open in Quantico, Virginia in the fall of 2006. According to the Navy’s Future Years Defense Program, the NMMC will also require museum support facilities. Given the close proximity of Fort Belvoir to Quantico, the committee believes that a joint facility to support both the NMMC and the National Museum of the United States Army could yield significant efficiencies
